SUMMARY

Innovative and results-driven Software Engineer with hands-on experience in full-stack development, Java-based applications, and AI-powered solutions, supported by strong expertise in DevOps practices, cloud computing, CI/CD pipelines, and containerization using Docker and Kubernetes. Skilled in designing and deploying scalable, secure, and high-performance systems that streamline operations and support data-driven intelligent applications, with additional proficiency in Linux system administration and shell scripting.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, JavaScript , Python ,Sql

Backend & Java Ecosystem: Core Java, Spring Boot, Spring Security, Spring Data JPA, Spring Ai, REST APIs, JDBC, JUnit, Hibernate (ORM), Microservices Architecture, MVC Architecture, OOP, Data Structures & Algorithms

Scripting & Automation: Bash , Python , Groovy

Databases: SQL ,PostgreSQL , Oracle Sql

Source Code Management: Git and Github

Ci/Cd Tools: Gitlab, Github Actions , Jenkins , Ansible

Cloud Services: AWS, Microsoft Azure , Oracle Cloud, GCP

Containerization/Orchestration: Docker, Docker Swarm , Kubernetes

Web & CMS: HTML, CSS, WordPress (Elementor), WooCommerce, Shopify

Others: Linux , Networking , Helm Charts, Prometheus , Grafana , Kafka , Yaml , Html , CSS , Maven , Gradle , Vs Code, IntelliJ Idea , Postman , pgadmin 4, MySqlworkbech

PROFFESIONAL EXPERIENCE

Software Engineer

Data innovations Technologies pvt.ltd

Feb 2025 - Present

- Developed scalable **backend** applications using **Java** and **Spring Boot**, applying strong **OOP principles** and clean **architecture** practices
- Designed and implemented **CRUD**-based systems with **PostgreSQL**, improving **data handling** efficiency and query performance
- Applied **Data Structures & Algorithms** and **Java Collections** to optimize application performance and memory usage
- Built and maintained **microservices**-based architecture, enabling modular, scalable, and independently deployable services
- Managed project builds and dependencies using **Maven** and **Gradle**, improving development workflow efficiency
- Containerized applications using **Docker** and deployed them using **Kubernetes** and **Docker Swarm**
- Implemented **CI/CD pipelines** and **automation** workflows, improving deployment consistency and reducing manual effort
- Worked extensively in **Linux environments** for development, debugging, and system configuration
- Used Git & GitHub for version control, collaboration, and **Git-based workflows (GitOps practices)**
- Contributed to **open-source** financial software (Simple Accounts), gaining real-world collaboration experience
- Gained hands-on exposure to cloud-native deployment concepts across **AWS**, **GCP**, and **OCI**
- Performed testing (**manual + automation** support) to improve application reliability
- Collaborated in **Agile** teams, contributing to feature development, **debugging**, and **system design**

Software Engineer intern

Data innovations Technologies pvt.ltd

Aug 2024 - January 2025

- Assisted in **containerizing** applications using **Docker**, enabling consistent development and deployment environments
- Gained hands-on exposure to **container orchestration** tools such as **Kubernetes** and **Docker Swarm** through guided implementations
- Supported **CI/CD workflows**, understanding automated **build**, **test**, and **deployment** pipelines
- Worked with **Linux-based** environments for application setup, configuration, and troubleshooting
- Collaborated on deploying and managing **web** and **backend applications**, focusing on **deployment** lifecycle rather than just development
- Contributed to **environment configuration** and **dependency management**, improving application portability across systems
- Assisted in implementing authentication mechanisms (**JWT**, **OAuth2.0**) within deployed applications as part of **backend** integration
- Participated in **WordPress** and **e-commerce** deployments (**WooCommerce**, **Shopify**), focusing on setup, customization, and **live environment handling**
- Built a strong foundation in **DevOps** and **cloud fundamentals**, including containerization (**Docker**), **container orchestration (Kubernetes, Docker Swarm)**, and basic **CI/CD concepts** through **structured learning** and **guided projects**

CERTIFICATIONS & COURSES

- **Introduction to Linux (LFS101)** - Linux Foundation
- **Wordpress Developer** - Udemy
- **Introduction to DevOps and Site Reliability Engineering (LFS162)**
- **SRE Fundamentals : Mastering Site Reliability Engineering** - Udemy
- **IBM - Cloud Computing Fundamentals**
- **Introduction to GitOps (LFS169)** - Linux Foundation
- **Introduction to Kubernetes (LFS158)** - Linux Foundation
- **Oracle Cloud Infrastructure AI Foundations**
- **Oracle Cloud Infrastructure Foundations Associate (2025)**
- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional**

EDUCATION

Bachelor of Science in Computer Science - Grade - A+ , CGPA - 8.28%

Nov 2022 - APRIL 2025

Aki's Poona College of Arts ,Commerce & Science , Savitribai Phule Pune University

LANGUAGES - **English** (Fluent) , **Hindi** (Native) , **Marathi** (Native)
