SUMMARY

Innovative and results-driven Software Engineer with hands-on experience in full-stack development, Java-based applications, and AI-powered solutions, supported by strong expertise in DevOps practices, cloud computing, CI/CD pipelines, and containerization using Docker and Kubernetes. Skilled in designing and deploying scalable, secure, and high-performance systems that streamline operations and support data-driven intelligent applications, with additional proficiency in Linux system administration and shell scripting.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, JavaScript , Python ,Sql

Source Code Management: Git and Github

Java & Backend Technologies: Java Collections Framework, MVC Architecture, Basic Spring Boot, Object-Oriented Programming (OOP)

Cloud Services: AWS, Microsoft Azure , Oracle Cloud, GCP

Scripting Languages : Bash , Python , Groovy

Containerization/Orchestration: Docker, Docker Swarm , Kubernetes

Ci/Cd Tools: Gitlab, Github Actions , Jenkins , Argo Cd

Others: Linux , Networking , Helm Charts, Prometheus , Grafana , Yaml , Html , CSS , Maven , Gradle

PROFFESIONAL EXPERIENCE

Software Engineer (Ai Automation)

Webpro Developers Pvt.Ltd

June 2025 - January 2026

- Developed and maintained interactive web applications using **HTML**, **CSS**, **JavaScript**, and **Python(Flask)**.
- Worked on enterprise-level **WordPress** development, customizing themes and building responsive website components using **Elementor**.
- Implemented **e-commerce** solutions using **WooCommerce** and **Shopify**, supporting product and storefront functionality.
- Followed **agile** development practices and incorporated feedback to improve code quality and implementation skills.
- Build Strong foundation in **cloud deployment**, **cloud fundamentals**, and container orchestration using **Kubernetes**, **Docker Swarm** through structured industry courses and guided learning programs.

Software Engineer

Data innovations Technologies pvt.ltd

January 2026 - Present

- Developed dynamic and scalable Applications using **Java** and **Core Java**, applying strong **Object-Oriented Programming (OOP)** principles.
- Built **CRUD**-based applications for data management using Java, **MVC architecture**, and **SQL databases**, ensuring efficient data storage and retrieval.
- Utilized Java **Collections Framework** and applied **Data Structures & Algorithms** to optimize application performance and data handling.
- Built and managed projects using **Maven** and **Gradle**, streamlining dependency management and build automation workflows.
- Designed and worked with **microservices**-based architecture, enabling **modular** and **scalable** application components.
- Worked extensively in **Linux** environments, performing **system operations**, **troubleshooting**, and development **environment configuration**.
- Implemented containerization using **Docker** and orchestrated services with **Docker Swarm** and **Kubernetes** for scalable deployments.
- Applied **DevOps** practices including container-based deployment, automation workflows, and environment configuration.
- Used **Git** and **GitHub** for **version control**, collaborative development, and **Git-based workflows** aligned with **GitOps** principles.
- Participated in development and contribution to **open-source** financial software Simple Accounts, enhancing **real-world software collaboration** experience.
- Gained hands-on exposure to **cloud computing concepts** and **cloud-native** deployment environments.
- Worked with **Test automation tools & Manual Testing** to support application reliability and continuous integration practices.
- Collaborated in an **agile** development environment, contributing to **software design**, **debugging**, and **feature implementation**.

CERTIFICATIONS & COURSES

- **Introduction to Linux (LFS101)**
- **Wordpress Developer** - Udemy
- **Introduction to DevOps and Site Reliability Engineering (LFS162)**
- **SRE Fundamentals : Mastering Site Reliability Engineering** - Udemy
- **IBM - Cloud Computing Fundamentals**
- **Introduction to GitOps (LFS169)**
- **Introduction to Kubernetes (LFS158)** - Linux Foundation
- **Oracle Cloud Infrastructure AI Foundations**
- **Oracle Cloud Infrastructure Foundations Associate (2025)**
- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional**

EDUCATION

Bachelor of Science in Computer Science - Grade - A+ , CGPA - 8.28%

Nov 2022 - APRIL 2025

Aki's Poona College of Arts ,Commerce & Science , Savitribai Phule Pune University

LANGUAGES - English , Hindi , Marathi
