SUMMARY

Innovative and results-driven Software Engineer with hands-on experience in full-stack development, Java-based applications, and AI-powered solutions, supported by strong expertise in DevOps practices, cloud computing, CI/CD pipelines, and containerization using Docker and Kubernetes. Skilled in designing and deploying scalable, secure, and high-performance systems that streamline operations and support data-driven intelligent applications, with additional proficiency in Linux system administration and shell scripting.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, JavaScript , Python ,Sql

Backend & Java Ecosystem: Core Java,Servlets, Spring , Spring Boot, Spring Security, Spring Data JPA, Spring Ai, REST APIs, JDBC, JUnit, Hibernate (ORM), Microservices Architecture, MVC Architecture, OOP, Data Structures & Algorithms , Collections

Scripting & Automation: Bash , Python , Groovy

Databases: SQL ,PostgreSQL , Oracle

Source Code Management: Git and Github

Ci/Cd Tools: Gitlab, Github Actions , Jenkins , Ansible

Cloud Services: AWS, Microsoft Azure , Oracle Cloud, GCP

Containerization/Orchestration: Docker, Docker Swarm , Kubernetes

Web & CMS: HTML, CSS, WordPress (Elementor), WooCommerce, Shopify

Others: Linux , Networking , Helm Charts, Prometheus , Grafana , Kafka , Yaml , Html , CSS , Maven , Gradle , Vs Code, IntelliJ Idea , Postman , pgadmin 4, MySqlworkbench

PROFFESIONAL EXPERIENCE

Software Engineer

Data innovations Technologies pvt.ltd

Feb 2025 - Present

- Developed scalable **backend** applications using **Core Java**, Spring, and **Spring Boot**, applying strong **OOP** principles and **clean architecture patterns**
- Designed, tested, and deployed** end-to-end Spring Boot **applications** with scalable and maintainable backend architectures
- Designed** and implemented **CRUD**-based systems with **PostgreSQL**, improving **data handling** efficiency and query optimization performance
- Applied **Data Structures, Algorithms**, and **Java Collections** to optimize application performance and **memory utilization**
- Built** and **maintained** **microservices-based architecture**, enabling **modular, scalable**, and independently **deployable backend** services
- Managed project **builds** and dependencies using **Maven** and **Gradle**, streamlining development and build automation workflows
- Containerized applications using **Docker** and deployed services through **Kubernetes** and **Docker Swarm** environments
- Implemented **CI/CD pipelines** and **automation workflows**, improving deployment consistency and reducing operational overhead
- Worked extensively in **Linux environments** for development, debugging, **server configuration**, and **deployment management**
- Used **Git** and **GitHub** for **version control**, team **collaboration**, and efficient **GitOps-based** development workflows
- Contributed to **open-source** financial software Simple Accounts, gaining **real-world** development and **collaboration** experience
- Gained hands-on exposure to **cloud-native deployment** practices across **AWS, GCP**, and **Oracle Cloud Infrastructure**
- Performed **testing** and **automation support** activities to improve **application reliability, stability**, and **maintainability**
- Collaborated within **Agile** development teams, contributing to feature **development, debugging, architecture** discussions, and **system design**

Software Engineer intern

Data innovations Technologies pvt.ltd

Aug 2024 - January 2025

- Built **enterprise-level WordPress** and **e-commerce** websites using **WordPress, Elementor, WooCommerce**, and **Shopify** technologies
- Assisted in **containerizing** applications using **Docker**, enabling consistent development and deployment environments across **Linux systems**
- Supported **CI/CD workflows**, understanding **automated build, testing**, and **deployment pipelines** in **production-like** environments
- Worked extensively with **Linux** environments for **application setup, server configuration, troubleshooting**, and **deployment management tasks**
- Collaborated on **deploying** and **managing web** and **backend applications** throughout the **complete software deployment lifecycle**
- Contributed to **environment configuration** and **dependency management**, improving application portability and cross-platform deployment compatibility
- Assisted in implementing **JWT** and **OAuth2.0 authentication mechanisms** within **backend applications** and secure deployment workflows
- Gained practical exposure to **Docker Swarm** and **Kubernetes**, understanding **container orchestration** and scalable deployment concepts
- Assisted in backend integration and **API-based workflows**, improving understanding of application connectivity and deployment architecture
- Built a strong foundation in **DevOps** and **cloud fundamentals** through **structured projects, deployment practices**, and **hands-on learning**

CERTIFICATIONS & COURSES

- Introduction to Linux (LFS101)** - Linux Foundation
- Wordpress Developer** - Udemy
- Introduction to DevOps and Site Reliability Engineering (LFS162)**
- SRE Fundamentals : Mastering Site Reliability Engineering** - Udemy
- IBM - Cloud Computing Fundamentals**
- Introduction to GitOps (LFS169)** - Linux Foundation
- Introduction to Kubernetes (LFS158)** - Linux Foundation
- Oracle Cloud Infrastructure AI Foundations**
- Oracle Cloud Infrastructure Foundations Associate (2025)**
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional**

EDUCATION

Bachelor of Science in Computer Science - Grade - A+ , CGPA - 8.28%

Nov 2022 - APRIL 2025

Aki's Poona College of Arts ,Commerce & Science , Savitribai Phule Pune University

LANGUAGES - English (Fluent) , Hindi (Native) , Marathi (Native)
